WE'RE HERE FOR YOU

Hall Health Center (HHC) is an outpatient clinic providing health care to University of Washington students, alumni, faculty, staff, and the public.

Patients of all ages are welcome at Hall Health. We are closely associated with UW Medicine, and our board-certified medical providers hold UW clinical faculty appointments.

We are committed to providing you with the best medical services available. HHC achieves the highest standards of outpatient medical care, as recognized by full accreditation from the Accreditation Association for Ambulatory Health Care (AAAHC).

UW STUDENT BENEFITS

Your Student Activity Fee (SAF) helps subsidize the cost of one medical clinic office visit or travel consultation each quarter! All visits with a medical provider at HHC are submitted to any health insurance you may have.

For enrolled, fee-paying students, the remaining out-of-pocket cost for one office visit per quarter is subsidized by SAF. For students without insurance, this includes the full cost of one office visit. The SAF subsidy cannot be used to cover other costs at HHC, including lab work, vaccines, imaging procedures, or medications.
