

Acceptable Titer/TB Screening Lab Reports from MyChart/Patient Portals

The Health Sciences Immunization Program (HSIP) requires acceptable documentation from students' MyChart or similar patient portals. By logging into your MyChart/patient portal, you will be able to access your test results from your Laboratory Tests/Test Results page.

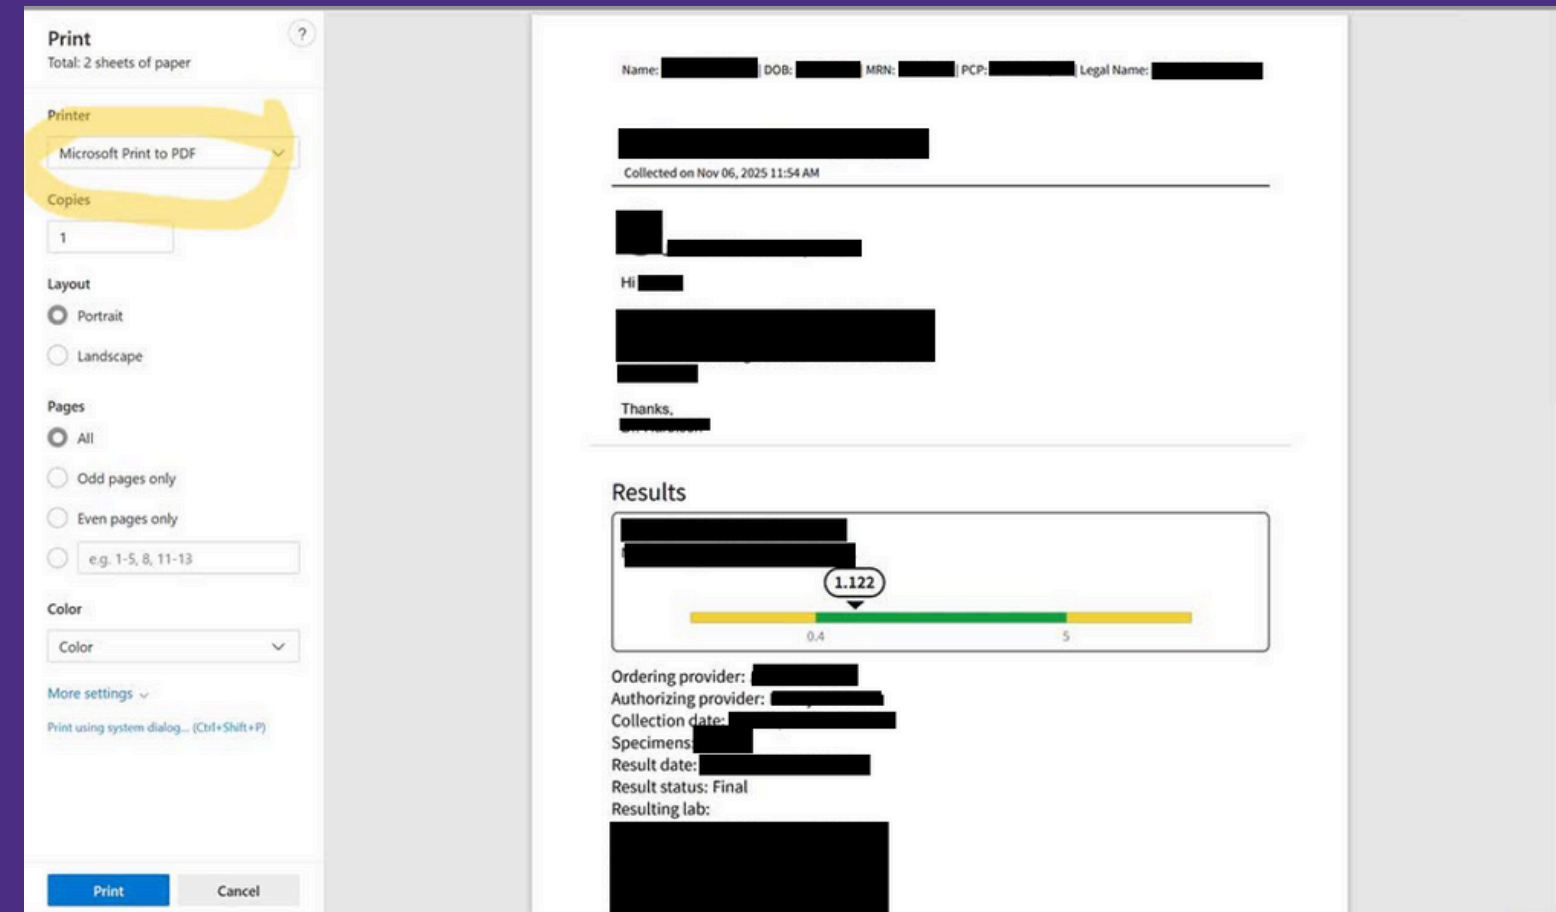

First, go to your Test Result page (**Do NOT click on "See Result Trends"**). Instead, click on the printer icon on your desktop or mobile device and you can then "print to PDF". Please note that the information we require is full name, the collection date, the test result, and the source of your lab. Please see the next pages for visual instructions.

MyChart via Desktop

The Printer Icon is on the far right side of the test name when you go to your test result. You can print your lab report as a PDF and then submit this document. **Do NOT click on “View Trends”.**

Step 1

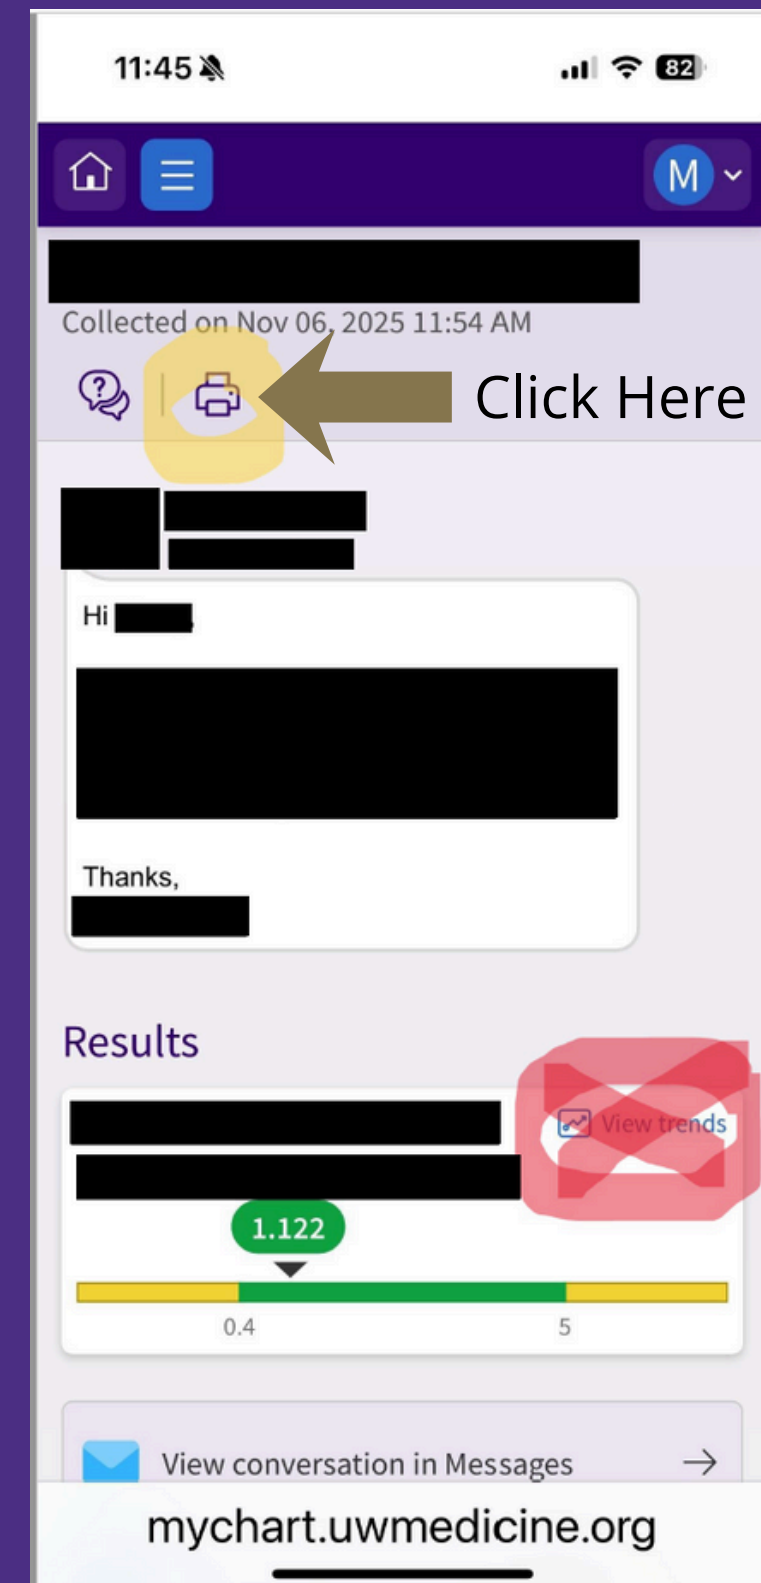

Step 2

MyChart via Mobile Web Browser

The Printer Icon is at the top of the page when you go to your test result. You can print your document as a PDF and then submit this document.

Do NOT click on “View Trends”.

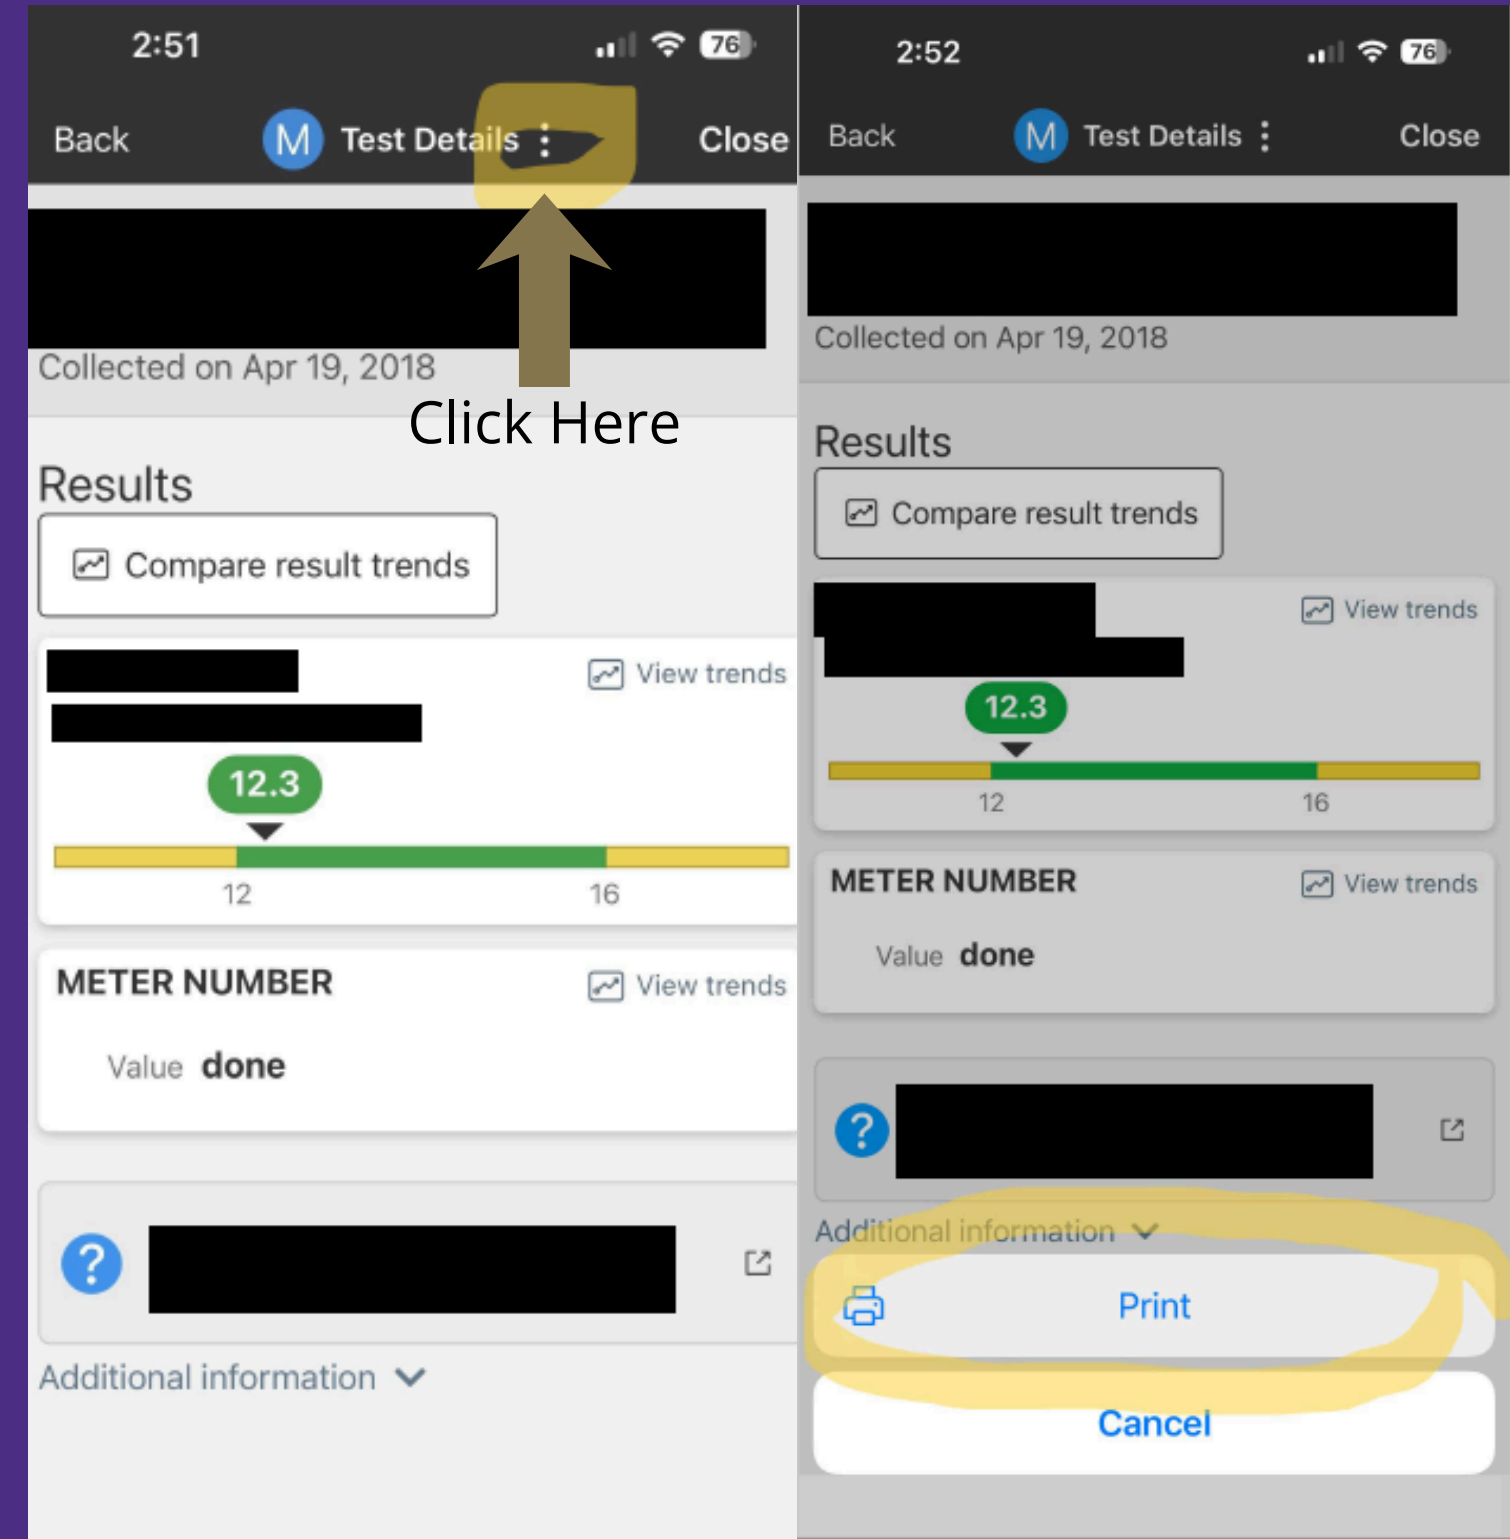

Step 1

MyChart via Mobile Application

The three dots at the top of the page is a menu that will ask if you would like to print when you go to your test result. You can print your document as a PDF and then submit this document.

Do NOT click on “View Trends”.
